NONPROFIT GUIDE
2021

A joint project of the Chicago Reader and Executive Service Corps
This issue launches the *Chicago Reader* Nonprofit Guide in print and online. The print guide will run annually, and the accompanying online guide will be updated several times a year, with more information and eventually a searchable database.

For the past several months, the Reader has held an open call for Chicago-area nonprofits and fiscally sponsored organizations and projects to submit their information to be included in this guide. In addition, we partnered with Executive Service Corps to include many of the more than 1,000 nonprofits in their database.

This guide includes 501(c)(3) nonprofits, fiscally sponsored grassroots, arts, media, and other organizations, and some social enterprises. There are many thousands of these in this area, so this guide is meant to be a starting point in the exploration of this vibrant part of our region. Don’t see your organization here? Go to this survey link: chicagoreader.com/nonprofitsurvey. We will be adding more online in the coming months.

Use this guide to show your support through donations of time, money, or other resources. Help amplify their work, attend their shows or programs, or express appreciation in any way you can. To see this guide online, go to chicagoreader.com/nonprofitguide.

We envision a racially just and equitable society as the full inclusion of all people into a society in which everyone can participate, thrive and prosper. In an equitable society, everyone, regardless of the circumstance of birth or upbringing, is treated justly and fairly by its institutions and systems.

We ask for your support to make this vision a reality.

Learn more about the work of the Les Turner ALS Foundation and help others on their ALS journey at HelpCureALS.org

The Les Turner ALS Foundation is Chicagoland’s leader in comprehensive ALS care. We are one of the longest-serving independent groups in the country and for over 40 years, we have taken an individualized approach to ensure the best quality of care.

Along with so many others, we have helped Erin navigate her diagnosis with ALS through educational materials, support groups, mobility equipment, and compassion.

“I’m hopeful that eventually there will be a cure for ALS. I just know that I’m not ready (to give up).” - Erin
